

Cumulative Index 1988

Volume 32

<i>January</i>	PRACTICE MANAGEMENT, pages 1-193
<i>April</i>	PERIODONTICS, pages 195-409
<i>July</i>	ADULT ORTHODONTICS, pages 411-645
<i>October</i>	DENTAL PHOBIA AND ANXIETY, pages 647-840

Note: Page numbers of article titles are in **boldface** type.

Abandonment of patients, 124-125

Accounting systems, computerized. See *Computerization, accounting systems via.*

Acute necrotizing ulcerative gingivitis, 196

Adult orthodontics

aging effects and. See *Aging, tooth movement with.*

alveolar bone remodeling and. See *Alveolar bone remodeling.*

appliance selection for, **573-590**

evaluation of needs in, 575-576

historical background of, 573-574

incisor position and, 580-582

interarch corrections and, complex, 585-589

interarch corrections and, simple, 577-578

intra-arch corrections and, complex, 582-585

intra-arch corrections and, simple, 577

limitations of removable appliance as factor in, 582

medical history as factor in, 576-577

motivation as factor in, 576

pain sensitivity as factor in, 576

patient education prior to, 576

retention objectives as factor in, 578-582

space management and, 578-580

technical advances affecting, 574-575

cephalograms for, 554-556

chief complaint in, 551-552

clinical examination in, 552-554

collagen changes after, 624

consultations for, 556-558

diagnostic procedures for, 551-558

cephalography and, 554-556

chief complaint and, 551-552

clinical examination and, 552-554

extraoral examination and, 552-553

intraoral examination and, 553-554

medical/dental history and, 552

radiography and, 554

study casts and, 556

Hawley retainers in, 475, 478, 625-631

implants in. See *Implants, orthodontic therapy using.*

limitations of, 485-487

lingual appliances for, **591-622**

advantages and disadvantages of, 601-603

archwires for, 594-595

brackets for, 592-593

case reports of, 603-622

Creekmore's appliance and, 592-593

diagnostic considerations of, 601

historical background of, 591-592

Kurz's appliance and, 592

ligation for, 595

placement of, 595-600

medical/dental history taking for, 552

occlusal adjustments prior to. See *Occlusal adjustments, preorthodontic.*

Adult orthodontics (*Continued*)

- pain sensation in, 414-415
 - periodontal preparation for. See *Periodontal therapy, preorthodontic*.
 - perioral musculature after, 623-624
 - prosthetic/restorative dentistry and, 447-456
 - case report of, 452-455
 - cleft palate/lip and, 451-452
 - implants and. See *Implants, orthodontic therapy using*.
 - orthognathic surgery and, 451
 - postorthodontic retention considerations and, 636, 639-640
 - procedures and techniques for, 450-451
 - rationale for, 449
 - treatment planning for, 447-449
 - radiographs for, 554
 - retention and post-treatment stability devices for, 623-643
 - bonded or band-based orthodontic appliances and, 636-639
 - connective tissue changes and, 624
 - fixed appliances and, 636-642
 - Hawley retainer and, 625-631
 - musculature changes and, 623-624
 - occlusal changes and, 624-625
 - positioners and, 631-633
 - prosthodontic appliances and, 636, 639-640
 - removable appliances and, 625-636
 - soft-tissue surgery and, 640-642
 - spring retainers and, 633-635
 - spring retainers in, 633-635
 - study casts for, 556
 - surgery and. See *Orthognathic surgery*.
 - technical advances in, 438
 - TMJ disorders and, 529-538
 - approach to therapy for, 535
 - diagnostic procedures for, 534-535
 - historical background of, 530-533
 - intraorthodontic problems of, 536
 - intraoral appliances for, 535
 - postorthodontic problems of, 536
 - tongue musculature after, 623-624
 - tooth positioners in, 631-633
 - treatment objectives and planning for, 551-571
 - case studies of, 558-570
 - information needed for, 551-558
- Advertising, 59-71**
- budget considerations for, 69-70
 - definition of, 60
 - direct mail, 68-69
 - employment opportunity, 130
 - goals of, determination of, 62-63
 - historical background of, 3, 59
 - identification of target market for, 60-61
 - magazine, 65-66
 - marketing research prior to, 60
 - media planning for, 63-69
 - motivation of patient via, 30
 - necessity of, 59-60
 - newspaper, 64-65
 - objections to, 59
 - outdoor, 67-68
 - public service announcements via, 70
 - radio, 66-67
 - telephone directory, 63-64
 - television, 67
 - transit, 67-68
 - yellow page, 63-64
- Aging, alveolar bone remodeling with, 441-443**
- periodontal ligament changes with, 439-441
 - tooth movement with, 437-446
 - biophysics/biomechanics of, 444-445
 - bone remodeling and, 441-443
 - dentition changes and, 443-444
 - periodontal ligament changes and, 439-441
- Agoraphobia, 649, 723-733**
- behavioral therapy for, 724-732
 - biofeedback, 728-729
 - cognitive desensitization, 726, 730
 - cognitive restructuring, 725-726, 729
 - program procedure for, 727-732
 - relaxation techniques for, 728-729
 - systematic desensitization, 725
 - definition of, 716, 723
 - etiology of, 724
 - geriatric patient, 716
 - historical background of, 723
 - misinterpretation of, 723-724
 - polyphobic behavior and, 828
 - screening procedures for, 727
 - symptoms of, 723
 - treatment of, 724-732
 - behavioral, 725-730
 - dentist's style as factor in, 726-727
 - objectives of, 724
 - preliminary tour of office in, 728
 - program procedure for, 727-732
 - rapport as factor in, 727
- AIDS, 403**
- Alveolar bone, atrophy of, 388, 243**
- furcations and. See *Furcations*.
 - periodontitis and. See *Periodontitis*.
 - remodeling of. See *Alveolar bone remodeling*.
- Alveolar bone remodeling, aging effects on, 441-443**
- collagen turnover and, 442
 - racial differences in, 443
 - sexual dimorphism and, 443
 - mechanical force activation of, 412
 - neuropeptide/cytokine involvement in, 411-435
 - animal studies on, 417-429

- cAMP/cGMP and, 429
 diagnostic value of, 431-432
 gamma-interferon and, 415, 431
 human in vitro studies of, 418-419, 421, 426
 inflammation and, 415
 interleukin 1 and, 415, 418-419, 422-426, 430-431
 mechanisms of, 413-416
 method of study of, 417-419
 pain sensation and, 414-415
 results of studies of, 419-429
 substance P and, 413, 418-421, 429-430
 tumor necrosis factors and, 415, 431
 VIP and, 413, 418, 421-422, 429-430
 postorthodontic, 624
- Alveolar ridge augmentation, 321-325
- Anesthesia, general, 775
 allergic reactions to, 809-810
 geriatric patient, 718
 indications for, 804
 inhalational anesthetics for, 820
 nitrous oxide/oxygen inhalation with, 820-821
 oral surgery, 809, 819-822
 pedodontic, 683-686, 807-808
 premedication for, 820
 risk-benefit analysis of, 820
 systematic desensitization vs., 706
 local, allergic reactions to, 810-814
 ester vs amide anesthetics for, 811
 indications for, 804
 oral surgery, 821
 preservatives in, 813-814
 risk-benefit analysis of, 820
- Antibiotic therapy, periodontal, 220-221, 227-232
 erythromycin and, 221
 gingivitis and, 220-221
 intrapocket drug delivery devices for, 231-232
 kanamycin and, 220
 metronidazole and, 230
 minocycline and, 229
 niddamycin and, 221
 penicillin and, 220
 periodontitis and, 227-232
 spiramycin and, 221
 systemic administration of drugs for, 227-231
 tetracycline and, 228-231
 vancomycin and, 220
- Antiplatelet agents, 219-233
 antibiotic. *See Antibiotic therapy, periodontal.*
 benzalkonium chloride and, 223
 bisbiguanides and, 224-227
 cetylpyridinium chloride and, 223
 chlorhexidine and, 224-227
 enzyme preparations and, 221-222
 fluorides and, 223-224
 gingivitis therapy and, 219-227
 ideal properties of, 227
 intrapocket drug-delivery devices for, 231-232
 oxygen-releasing pastes and, 231
 periodontitis therapy and, 227-233
 adult, 227-230
 juvenile, 230-231
 phenolic compounds and, 222
 preorthodontic therapy of, 462
 quaternary ammonium compounds and, 223
 sanguinarine and, 223
 subgingival irrigation of, 231
- Anxiety, anatomically related areas to, 837
 appraisal aspect of, 825
 association aspect of, 825
 attribution aspect of, 825
 definition of, 647, 824
 dental. *See Dental anxiety and phobia.*
 dentist anxiety, 654-656
 endogenous vs nonendogenous, 826, 827
 learned process of, 824
 state, 787-788, 824
 subjectivity of, 824
 trait, 787
- Associateships, 99-102
 contractual agreements for, 94-95, 101
 cost-benefit analysis of, 91-95
 definition of, 100
 employee status of associate in, 94
 indications for, 99-100
 interview of candidates for, 101
 mastermind study club discussion of, 120-121
 partnerships resulting from, 91, 101-102
 sources for seeking or offering, 100-101
- Avoidance behavior, 648, 651, 652
 behavioral therapy for, 705-714
 general anesthesia vs., 706
 graduated exposure, 708-709
 historical background of, 705-707
 imaginal flooding, 709
 modeling methods for, 709-710
 stepped-care approach to, 711-714
 stress inoculation, 710-711
 systematic desensitization, 706-708
 frequency of, 779-780
- Barbiturates, 664, 810
- Behavioral therapy, for dental anxiety and phobia, 652, 781-783
 agoraphobia and. *See Agoraphobia, behavioral therapy for.*
 avoidance behavior and. *See Avoidance behavior, behavioral therapy for.*

- Behavioral therapy (*Continued*)
 for dental anxiety and phobia, biofeedback in. See *Biofeedback therapy, for dental anxiety and phobias*.
 breathing exercises for, 661
 coping skills enhancement and, 657, 661-662
 dentist's attitudes and personality type as factor in, 654-655
 desensitization and. See *Desensitization therapy, for dental anxiety and phobias*.
 distraction methods of. See *Distraction therapy, for dental anxiety and phobias*.
 drug therapy combined with, 814-815
 effectiveness of techniques of, studies of, 782-783
 environmental feedback and, 654
 general anesthesia vs, 706
 historical background of, 652-653
 modeling and. See *Modeling, for dental anxiety and phobia reduction*.
 pedodontic patients and. See *Pedodontic dental anxiety and phobia, behavioral therapy for*.
 psychoanalysis vs, 653
 relaxation training in. See *Relaxation training, for dental anxiety and phobia*.
 visualization exercises for, 661-662
 Benzalkonium chloride, 223
 Benzodiazepines, amnesia from, 821
 dental anxiety and phobia reduction with, 662-664, 810, 821
 types of, 810
 Beta-adrenergic blockers, 662-663
 Bicuspization, furcation therapy, 258-261
 Biofeedback therapy, for agoraphobia, 728-729
 for dental anxiety and phobia, 735-744
 clinical procedure for, 738-742
 desensitization therapy and, 735, 737, 741
 electromyography training in, 741
 mode of action of, 736-738, 742-743
 objectives of, 736-738
 pain perception in, 738
 physiologic activity in, 739, 740
 relaxation training and, 735, 740
 symbolic value and, 737-738
 symptom analysis in, 740
 therapeutic value of, 742-743
 thermal biofeedback in, 741
 vascular biofeedback in, 741
 headache, 736
 myofascial pain disorder, 736
 objective of, 736
 temporomandibular joint disorder, 736
 Bisbiguanides, 224-225
 Bone grafts, furcation therapy, 261
 Buying or selling of practices, 108-112
 practice evaluation for, 108-112
 accounts receivable in, 110
 area competition in, 111
 fee schedules in, 110
 income in, 109
 insurance considerations in, 110
 lease provisions in, 109-110
 location of practice in, 109
 longevity of practice in, 109
 marketing/advertising history in, 111
 operatories in, 110
 patient characteristics in, 110-111
 personnel considerations in, 111
 price evaluation in, 112
 real estate factors in, 110
 reasons for, 108
 Calculus, periodontitis and, 199, 206
 Capitation plans, closed panel, 4
 future trends in, 8-12
 historical background of, 4, 8
 hybrid, 10-14
 open panel, 8-10
 Caries, periodontal disease and, relationship between, 217
 Cetylpyridinium chloride, 223
 Children. See *Pedodontic patients*.
 Chlorhexidine, 224-227
 Cleft palate/lip, prosthetic and orthodontic treatment of, 451-452
 Computerization, 131-190
 accounting systems via, 149-171, 184
 accounts payable in, 157-159
 accounts receivable in, 161-162
 accrual vs cash accounting methods in, 149-150
 activity reports in, 164-165
 balance sheet in, 167-169
 custom applications of, 149
 double-entry method for, 150-153
 horizontal applications of, 149
 income statement in, 165-169
 journal files for, 163-165
 manual entry into general ledgers in, 162-163
 master files for, 163-165
 payroll considerations in, 155-157, 159-160
 recurring entries in, 160-161
 retained earnings in, 169-170
 setting-up of general ledger for, 153-154
 software for, 149
 tax considerations in, 159-160
 vertical applications of, 149
 administrative purposes of, 175-176

- advantages of, 131, 132
- appointment scheduling via, 179-180
- collection of payments via, 131-138
- completion letters via, 139, 142-143
- computer service bureaus for, 141-148
 - back-up of data and, 147-148
 - disadvantages of, 148
 - financial control and, 146
 - personnel turnover and, 146
 - practice analysis and, 147
 - precollection of payments and, 147
 - reduction of paperwork and, 147
- correspondence via, 138-145
- cost reduction via, 173-175
- customized patient care via, 184-185
- diagnostic uses of, 176-180
- financial justification for, 131-148, 173-175
- financial policy statements/agreements via, 134, 136-137
- future trends in, 173-189
- insurance plan monitoring via, 132
- marketing techniques using, 176, 182-184
- medical history taking via, 140, 178
- paraprofessional utilization of, 180
- patient registration and information via, 135
- payment agreement printout via, 137
- purpose of, 175-176
- quality of service improved via, 175-176
- recall letters via, 139, 144-145
- record maintenance via, 180-181
- staff scheduling via, 179-180
- treatment planning via, 177
- x-ray film analysis and imaging via, 178-179
- Continuing education, dental staff, 42-43
- mastermind study club, 121-122
- Contract law, 123-124
- Contract provider organization, 5, 7, 8
- Crossbite, functional considerations of, 510, 514
 - orthodontic treatment for, 514
 - orthognathic surgery for, 522-523, 525-527
- Cytokines, alveolar bone remodeling and. See *Alveolar bone remodeling, neuro-peptide/cytokine involvement in.*
- Delivery systems, 1-26
 - associateships and. See *Associateships.*
 - capitation plans and. See *Capitation plans.*
 - categories of, 21-23
 - contract fee schedule program, 8
 - contract provider organization, 5, 7, 8
 - corporate perspective of, 18-19
 - denturists and, 4
 - department store dental practices and, 4
 - entertainment industry's perspective of, 20
 - franchise dental practices and, 4
